AI & SOFTWARE PROJECTS

BAG Financial Manager

Flask Full-Stack Financial Web Application

- Developed AI-assisted budgeting application designed for student financial awareness
- Built Flask-based backend with persistent database integration
- Used generative AI tools to support development, debugging, and research workflows
- Implemented modular architecture and demo data environment for testing and presentations
- Coordinated GitHub version control and project collaboration
- Presented live application demonstration during capstone showcase

Degree Certification Checker

Streamlit Academic Eligibility Application

- Developed interactive application to evaluate student certificate and diploma eligibility
- Built logic to process academic course completion data
- Improved usability, interface functionality, and debugging workflows
- Assisted with executable deployment and technical presentations
- Maintained collaborative GitHub development practices

LEADERSHIP & EXPERIENCE

United States Army / Army National Guard

2015 – 2021

- Demonstrated leadership and accountability in high-pressure environments
- Collaborated in team-based operations requiring adaptability and communication
- Applied problem-solving and decision-making skills in dynamic situations

Amazon | 2021

- Maintained efficiency and accuracy in fast-paced operational environments

SKILLS

- Python Development
- Flask & Streamlit Applications
- Generative AI Assisted Development
- Debugging & Problem Solving
- GitHub Version Control
- Database Design
- Technical Presentations
- Team Collaboration

EDUCATION

Fayetteville Technical Community College

Associate in Applied Science, Information Technology — Systems Security & Analysis
Completed May 2024

Associate in Applied Science, Cloud Management
Expected May 2026

Associate in Applied Science, Computer Programming
Expected May 2026

TOOLS & TECHNOLOGIES

- Python, SQL, HTML/CSS
- Flask, Streamlit, Git, VS Code
- AWS, Azure, VMware
- Linux, Windows
- Database Design, Debugging, Virtualization
- Cisco Packet Tracer, Routing & Switching
